

31

0

A 32-bit register diagram. The top row shows bit indices 31 at the left and 0 at the right. The bottom row shows the corresponding bit values. A large white rectangular box covers the central 31 bits, labeled "dfii\_a\_cmdinjector\_wrdata[31:0]" in bold black font. The first and last bits are black, while the middle 30 bits are white.

dfii\_a\_cmdinjector\_wrdata[31:0]
