

31

0

at_refresh[31:0]

The diagram illustrates a 32-bit register. It features two horizontal black bars. The top bar spans from the 31st bit position on the left to the 0th bit position on the right. The bottom bar spans from the 31st bit position on the left to the 1st bit position on the right. Vertical tick marks are present at every bit position, from 31 down to 0. The text "at_refresh[31:0]" is centered below the register, indicating the memory location or variable name.
