

31

0

A 32-bit register diagram. The top row shows bit indices 31 at the left and 0 at the right. The bottom row shows the corresponding bit values. Bits 31 through 2 are black vertical bars, indicating they are reserved or unused. Bit 1 is a white square with a black border, indicating it is a data bit. Bits 0 through 0 are black vertical bars, indicating they are reserved or unused.
