dq_remapping[31:0]

The diagram illustrates a 32-bit register, dq_remapping, indexed from 31 to 0. The register is represented by a horizontal black bar divided into 32 segments. Above the bar, the bit index 31 is positioned at the far left, and the bit index 0 is positioned at the far right. The text "dq_remapping[31:0]" is centered below the register bar.
