a_dq_remapping[127:96]

A 32-bit register visualization. The top row shows bit indices 31 down to 0. The bottom row shows the corresponding bit values. A central white rectangular box highlights the bits from index 127 down to 96, which is labeled "a_dq_remapping[127:96]". The bits are represented by vertical black bars on a black background.
