

31

220

0

A 32-bit register diagram. The top row shows bit indices 31 down to 0. The bottom row shows bit values. A vertical line divides the register into two sections: a 21-bit section on the left and a 1-bit section on the right. The left section is labeled "controller_last_addr_1[20:0]" and has a gray background. The right section is labeled "controller_last_addr_2[1:0]" and has a white background.

controller_last_addr_1[20:0]
