

31

0

A 32-bit register diagram. The top row shows bit indices 31 down to 0. The bottom row shows the corresponding bit values. Bits 31 through 2 are high (black), while bits 1 and 0 are low (white). The register is labeled `dfii_a_cmdinjector_wrdata_s[31:0]`.

dfii\_a\_cmdinjector\_wrdata\_s[31:0]
